[Invalid input for prompts in chat, past a certain point](#)
[Google AI Studio](#)
[Jul 22](#)

Good evening , please remember if you check your right hand tab which contains the info about controls over the thought length context and contextual window limit . You'll notice that it's set just just over 1 Million due to some extent your contextual window has perhaps reached its limits?

[Doom Loop - Frequency Penalty - 2.5 Flash](#)
[Gemini API](#)
[Jul 18](#)

Good evening over the last 17 months , I've put in a substantial amount of thought and time into the whole sequential processing loops issue, as well as sequential cascading failure. If

you would like some assistance I would be happy to help but I'm going to need you to explain a little bit more and...

Dario Schiraldi : How do I monitor and debug models within Google AI Studio?

Google AI Studio

Jul 9

Good morning my friend, I have created a topic about PICFDAL - Prompted interactive contextualized feedback driven AI learning, please check it out its an explanation about some basics when training and monitoring, it might also give you some new ideas

Gemini-2.5-pro accessed over <https://generativelanguage.googleapis.com/v1beta/openai/> has dramatic latency increase

Gemini API

Jul 3

Good morning I do apologize for the later reply currency using the Gemini-Cli setup I am calling the model using API key as an example here it is my launch prompt `llm -m gemini-2.5-pro -c | tee >(espeak -v en-208 -p 0 -s 168 -g2 -k1)` . Please keep in mind that before the pipe functionality which i...

Gemini-2.5-pro accessed over <https://generativelanguage.googleapis.com/v1beta/openai/> has dramatic latency increase

Gemini API

Jun 28

When running the model and calling the API key I also encountered this problem you're going to have to run `pip install rust` and `pip install cryptography` to fix the error,

Gemini CLI - when I generate an api key, the Plan shows as FREE and does not grant me access

Gemini API

Jun 28

Please check out the post I have Gemini Cli that I given detailed overview of installing necessary packages calling API and interacting with the model if you have any further questions after that please feel free to contact me or any of the members or moderators we are quite busy there will always b...

About the Gemma Forum

Gemma

Jun 27

Hello my friend welcome to the forum for any inquiries or questions or assistance please feel free to ask anyone on the forum or post a topic or thread, Google AI studio is the place to stay up to date with all the models and tools in terms of functionalities they can perform and the forum here is w...

Please do explain your response? As I do not understand!

Is there any software that can do this?

Community

Jun 8

There you go my friend

<https://aistudio.google.com/apps/bundled/gemini-dictation?showPreview=true&showCode=true&showAssistant=true>

Inflated and misleading benchmark for 2.5 pro 0605?

Gemini API

Jun 8

Did you check the reasoning tab ? Also you can adjust the responses but, keep in mind it's a thinking model rather than the previous version that focuses more intently in response generation

Here is the list of the .sh script files I am Busy with... *1 An executable without the .sh file extension it's Called "Gemi" *2 Bootstrap.sh this file contains the basic script for a bootload function *3 Gemi_Memory.sh this file contains all the directories and file paths *4 Gemi.sh there's file ...

Gemini 2.0 not completing responses

Gemini API

Apr 22

Well hello there welcome to the forum glad you have you here could you send me some more details please "Modified by moderator" Kind regards Clinton Brummer

The webpage is super slow after reach 220000 tokens, found many of "CountTokens" on Chrome dev tools

Google AI Studio

Mar 31

Have you come right? I have included a screenshot of the chat sandbox I am using and I have passed 700k tokens and besides the browser having a delay with loading ,the models interaction and response time seems normal ... [Screenshot_20250331-180017]

Can we integrate Gemini in the salesfore for Complete Gmail Management from the salesforce Platform to recieve and reply to emails

Gemini API

Mar 18

Good evening, Yes you can , its possible are you simply using Gemini in the mentioned platform or are you custom building the functionality features ? And then trying to apply it to the mentioned platform??

Unable to access gemini-1.5-flash-001-tuning using Gen AI SDK

Google AI Studio

Mar 18

Well hell there, have your used the test script ? To test your call to the model? For example curl

"https://generativelanguage.googleapis.com/v1beta/models/gemini-2.0-flash:generateContent

```
t?key=GEMINI_API_KEY" -H 'Content-Type: application/json' -X POST -d '{ "contents": [{"parts":[{"text": ...
```

Fresher alert - using Gemini API for the first time

Gemini API

Mar 17

We are always here to help just ask my friend

When inputing a video output turns to text only

Google AI Studio

Mar 17

Good evening in order for such things as media within responses you will have to activate the function calling option and edit the script in order to for example generate images you can custom build your entire response based structures

Gemma 3 Disappeared?

Google AI Studio

Mar 17

Seems like some restrictions were placed, how many independent chats/prompts have you gotten in your library in AI Studios?

The webpage is super slow after reach 220000 tokens, found many of "CountTokens" on

Chrome dev tools

Google AI Studio

Mar 13

Okay so you did remove some of the data that has a high token cost and still the environment was pretty slow okay so now we know it is definitely a data handling issue rather than a retrieval issue now did we know it's a handling issue we need to determine is it a server side handling issue or is it...

The webpage is super slow after reach 220000 tokens, found many of "CountTokens" on

Chrome dev tools

Google AI Studio

Mar 13

I will stop using speech to text Im sorry :rofl:

The webpage is super slow after reach 220000 tokens, found many of "CountTokens" on

Chrome dev tools

Google AI Studio

Mar 13

I would like to ask you to check something for me in the chat constructed that you cannot expand beyond those 200+ thousand , when you click on a response or an input you'll see there's an option to branch from there could you branch so that you don't lose the context or meddle with the current cons...

The webpage is super slow after reach 220000 tokens, found many of "CountTokens" on
